

# EVAPO-RUST® GEL

Rust Remover For Vertical Surfaces

## REMOVE RUST FROM VERTICAL SURFACES OR ITEMS TOO LARGE TO DIP

Evapo-Rust® Gel combines the rust removing power of Evapo-Rust® with the ability to cling to vertical, rusted surfaces. Evapo-Rust gel does not harm copper, brass, aluminum, glass, or plastic.

- ✓ Brushable
- ✓ Biodegradable
- ✓ Clings to vertical Surfaces
- ✓ No VOCs
- ✓ Low Odor

## HOW TO USE EVAPO-RUST® GEL

It's very easy to use Evapo-Rust® Gel. All it takes are 3 simple steps:

### PREP

Prep rusted surface

### APPLY

Apply gel and wait

### CLEAN

Rinse and wipe clean

For best results, do not use in direct sunlight. Use on rusted items at temperatures between 15°C and 35°C. Clean rusted item to remove dirt, oil, grease, and loose rust scales. Apply a thick coat of Evapo-Rust® Gel to the rusted areas. Allow to work for 1 to 2 hours or until rust appears removed. Rinse off. Repeat application on heavily corroded areas. If Evapo-Rust® Gel dries on surface, the gel may require a soft brush and water to remove.
